

So, what do we use to clean our facilities?

Quality Cleaning Service uses Portion Pac™ Brand cleaning products in every possible cleaning application*.

Portion Pac Brand has been Green Seal Certified. If a product has the Green Seal Certification, that means it has undergone scientific testing to determine what impact, if any it will have on our environment and the health and well being of humans. If a product meets all of the stringent requirements, it can then bear this special Certification.

Why we choose Green Seal® Certified Products...

It's simple, because we care about our employees, our clients and our environment.

But, we don't stop there....

In an effort to cut paper waste, we use Microfiber towels in all cleaning applications. Not only do they provide a much cleaner surface than paper towels do, but we are doing our part to preserve the environment.

*At times, there may be cleaning issues that require the use of a product for which a Green Seal Certification is not possible, such as germicides or products containing acid.

We are not a Franchise or National Company, Quality Cleaning Service started in NW Indiana in 1993

About Us

Quality Cleaning Service has been providing quality, dependable and affordable service since 1993.

We specialize in Medical Cleaning and Floor Care.

Our Company is large enough to take care of all of your cleaning needs using the latest equipment and technology available and small enough to give you personalized attention... So we are there when you need us.

We carefully screen all employees through background checks and references. All of our employees are trained, uniformed, bonded and insured.

Why us?

Quick response - We are there when you need us

Uniformed - Trained - Supervised

Attentive - Paying attention to detail

Locally owned and operated since 1993

Inured and Bonded

The latest technologies at an affordable price.

Your safety - We use Green Seal Certified products

*We might be able to save you money-
Without jeopardizing quality.
